

**LET'S  
ACHIEVE  
SUCCESS  
TOGETHER**

**BENKLINE**

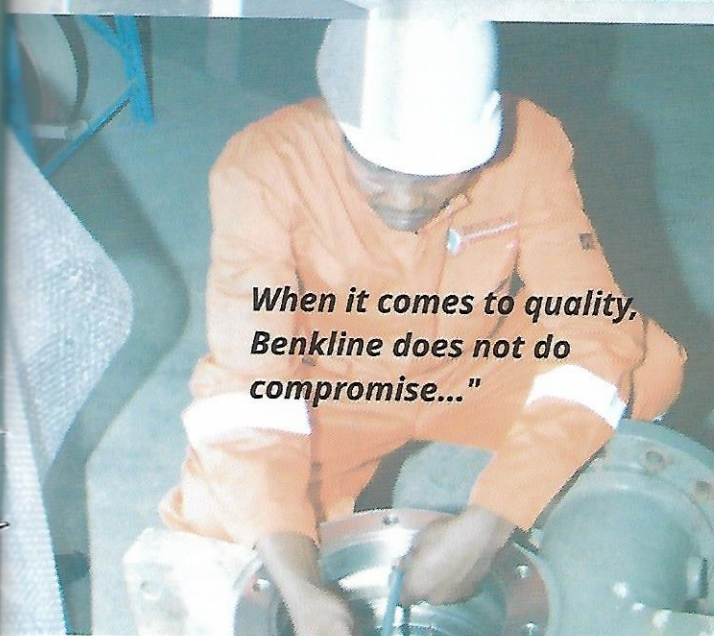

**NIGERIA LIMITED**

*OIL AND GAS AND ALLIED SUPPORT SERVICES*

NIS ISO 9001: 2015

*When it comes to quality,  
Benkline does not do  
compromise..."*

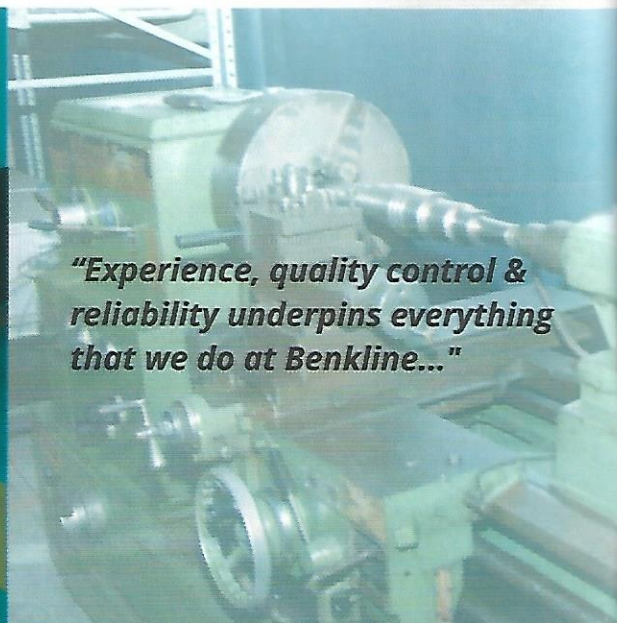

**Benkline Nigeria Limited** is an ISO 9001:2015 certified independent oil field service company. The company was formed in 1995, and is wholly-owned, by Nigerians as an oil field service company and has experienced unprecedented growth in the Nigerian oil industry. Our vast experience cuts across several facets of the industry, together with affiliations with a number of reputable foreign companies. We are professional in applying this instinctive knowledge and experience to addressing your ongoing requirements efficiently and cost-effectively.

**Benkline Nigeria Limited** has the reach and means to deliver high quality products and services. We understand first hand, the complexities and issues facing our industry, together with a strong grounding of the Nigerian culture and ways of conducting business. We are able to respond swiftly to our clients' requirements in a uniquely Benkline way.

Our team at **Benkline Nigeria Limited** combine several years of experience gained from different sectors of the Nigerian oil and gas industry. Our clients will testify of this, thanks to our technical expertise, client focus, on-time delivery, partnerships with world class companies, quality and speed of service. In addition to our complete professionalism, we are the benchmark for the industry.

*"Experience, quality control & reliability underpins everything that we do at Benkline..."*

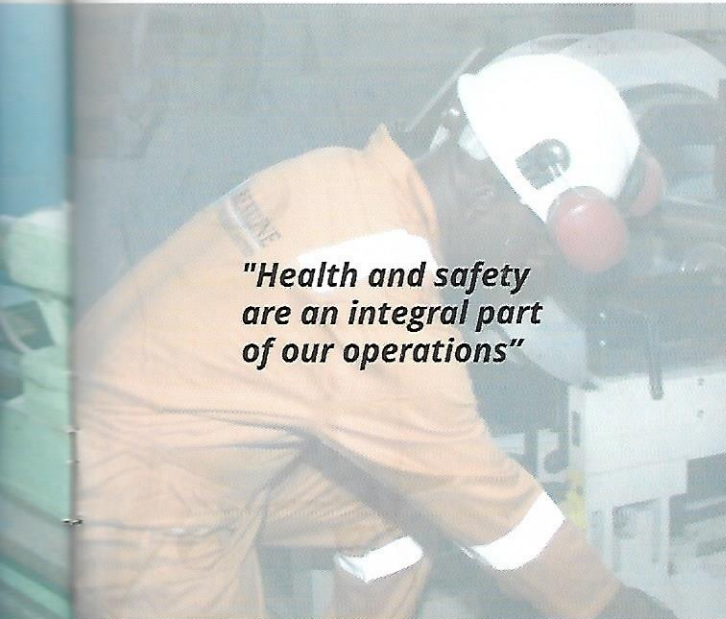

## **Benkline's Permanent Commitments**

- A resolute commitment to Health & Safety conscious operation as well as care for the environment.
- A customer-centric service provision - with emphasis on attaining the highest standard in customer care.
- Total Quality Management
- A transparent and ethical approach to ALL business dealings.

## **Benkline's Management Structure**

The Benkline management team is made up of executive directors and senior managers. The board of directors consists of non-executive directors with several years of engineering, management, business, legal and finance experience in the oil and gas industry. Our culture is focused, innovative and entrepreneurial, facilitating the delivery of effective services to our clients. To ensure that each new job is handled by a dedicated team, we follow a project-based organizational structure, with the head office overseeing the general planning, funding and operations for each contract. With this structure, we are able to effectively and efficiently run several projects simultaneously.

*"Health and safety  
are an integral part  
of our operations"*

## **Mission:**

To be the Nigerian Company of Choice and Veritable Local Content Vehicle in the Provision of Total Quality Management Services to the Nigerian and West African Oil & Gas Industry.

## **Vision:**

To be the Preferred Supplier of Engineering and Procurement Services to the Oil & Gas Industry in Nigeria and the African continent.

## **Core Value**

- **Highest Ethical Standards** – BENKLINE, upholds the highest ethical standards in all of its operations
- **Customer Satisfaction** - At BENKLINE, customer satisfaction is the highest priority.
- **Quality** - BENKLINE will make every effort to deliver the highest quality products and services in our line of business.
- **Continual Improvement** - At BENKLINE, continual improvement of our service delivery processes including the people is the norm.
- **People** - BENKLINE Motivates and provides the employees with a safe and healthy work. Environment that is conducive for consistent peak performance.

*"The skills and knowledge base of all Benkline's staff are constantly updated"*

### Core Objective

Being a preferred choice implies offering services that meet the customer's requirements in terms of:

- Price
- Quality
- Speed of completion/delivery
- Strict compliance with statutory/regulatory requirements
- Product or service specifications

### Strategic Objectives

To develop our employees into the most professionally committed team in the industry.

Growth of our core business services to maintain a leadership position in the provision of services to the entire value chain of Oil and gas operations.

To develop and exploit our engineering capability and to become one of the undisputed Nigerian leaders in the provision of pumps, rotating equipment and mechanical seals services.

To grow and expand our existing capacity in Rotating Equipment, HVAC Services and Manpower Development and Management.

**DIRECTOR GENERAL/CHIEF EXECUTIVE  
STANDARDS ORGANISATION OF NIGERIA**

We recognize that everyone's interest is best served when health and safety become an integral part of our operations, not necessarily because it is required but because we want to. It is therefore no surprise that we have excellent safety records throughout our entire operation.

## **Be in Quality while you put Safety First**

To live this slogan Benkline Nigeria Limited operates and works within the guidelines and standards that demand a responsible relationship with our clients, employees and community in which we operate. Our success is therefore assessed through both tangible and intangible measures.

Our QHSE Policy encompasses Quality, Health, Safety and Environmental Management based on the following principles:

### **Quality**

Our key objective is to bring our processes into compliance with the ISO 9001 Quality Management Standard, for which we have been certified since 2015. Our Total Quality Management system is a permanent feature of life at **Benkline Nigeria Limited**, with all employees at all levels ensuring that activities are in line with our Quality policy.

### **Health & Safety Management**

Concern for the improvement of Health and Safety conditions in the working environment, by taking into account the specifics of our processes. This is an integral part of our business and reflects our commitment to the care for our employees and attitude towards the social environment where we live and operate.

For us at BNL, compliance with the relevant legislation represents merely the minimum level to be achieved and improved upon, as evidenced by our HSE programme. Despite its current effectiveness level, the programme is under constant review for further development.

### **Environmental Management**

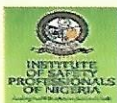

Our high level of environmental awareness ensures a pleasant working environment and good relations with our neighbours, hence intensive efforts towards sustainable development and environmental management.

We also aim for continuous improvement of working and living conditions of all our employees and the population residing in the vicinity of activities.

Our environmental policy and procedures have been developed to conform to the requirements of ISO 9001.

- Workshop Services: Service Center and Repairs
- Pumps and Rotating/Static Equipment Services
- HVAC System Services
- Manpower Supply and Human Capital Development
- Remediation Services
- Procurement Services

## Ancillary Services

- Engineering - Re-engineering of Obsolete Pumps and Spares
- Maintenance of Lifting Equipment/Certification
- Logistics Services
- Corrosion Inspection and NDT Services
- Blasting and Painting Works
- Flowlines/Pipeline Maintenance and Repairs
- Pressure/Hydro Testing Works
- Electrical/mechanical Instrumentation and Production Facilities Maintenance
- Fabrication Works
- Duct Work
- Project Management

# WORKSHOP SERVICES - Service Centre and Repairs

Benkline Nigeria Limited in partnerships with both Frank Mohn AS of Norway and Eurofiliales of France host a Comprehensive workshop facility in Port Harcourt.

Workshop space: Covered Area - **1200 M<sup>2</sup>**

Open Area - **2000 M<sup>2</sup>**

Our workshop boasts of a combination of 3 to 8 tons forklifts capacity as well as 5 and 7.5 tons hoists double girder overhead crane and covers the following area:

- Machining
- Mechanical seals
- Pump repairs
- Offshore interventions
- Maintenance Support
- Training and provision of technicians

## Core Competencies/Service Expertise

Mechanical/Electrical/Instrumentation Works

Sales/Repair/Spare parts

Assistance in stock management

Implementation of maintenance programmes

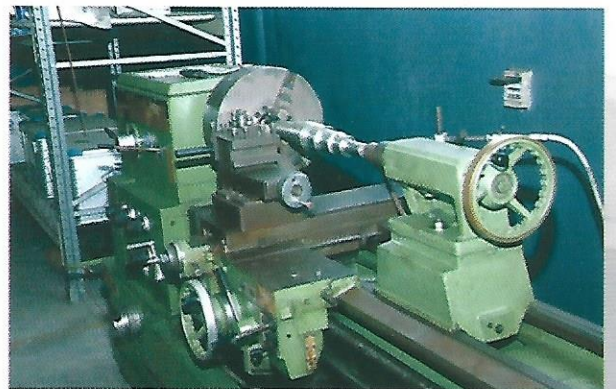

Maintenance of diesel engines that are used for example on your Emergency Diesel Generators

Capable of receiving and dispatching all types of materials to SEI international standards

Duplication, reverse engineering, rapid prototyping on all types of pumps

## Installed Equipment

- Metrology room
- Mechanical seals Machine
- Lathe Machine
- Milling machine
- Vertical drilling machine
- Welding Machines
- Double Girder Overhead ABUS Crane/Manual winches on transportable A frame
- Electrical Winches
- Balancing Machine
- Forklift
- Sand Blasting Bay

**We provide high standard Crane and Deck Services for Swamp, offshore and onshore environments. Among the services rendered are the following:**

- The provision of back-to-back crane operators with the required training and skills to operate and maintain all cranes.

- Employment Contracts
- Operational Support
- Transport and Housing
- Other Support Services

# Integrated Logistics Services Support for Long Lead Equipment Transport

The LLE and spares import initiative covers the services associated with the movement of client's long lead equipment and commissioning spares from designated world wide export locations to fabrication yards in Singapore and Malaysia as well as the movement of client's capital and two years operating spares to warehouses and storage yards located in Nigeria.

## **BNL provides services associated with:**

- LLE and spares receipt
- Inspection
- Storage
- Consolidation
- Transportation
- Cargo Tracking
- Customs Clearance in originating and destination countries.

## **The LLE and spares in broad terms refers to the following:**

- Centrifugal compressors and spares
- Rotary compressors and spares
- Centrifugal pumps and spares
- Essential generator and spares

BNL provides total air conditioning solutions for onshore and offshore operations. The company maintains an agency/Partnership agreement with MizCo Pty of Australia, one of the world's leading specialists in onshore/offshore HVAC Systems.

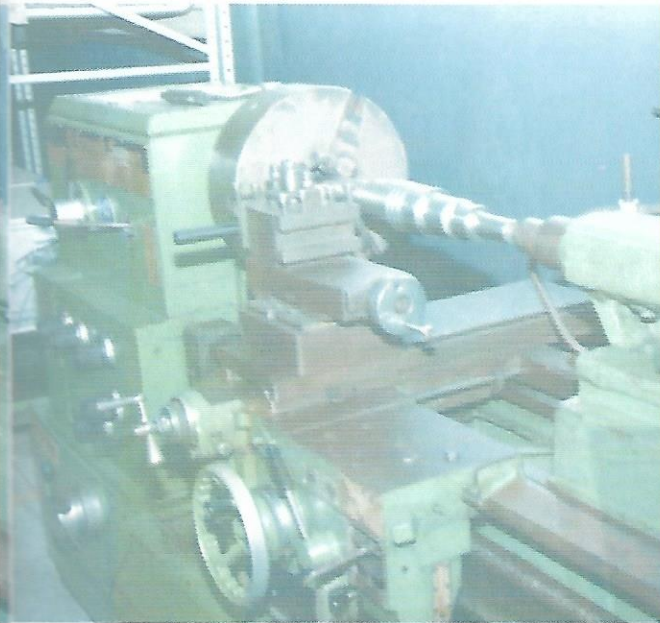

BNL services in this area include the following:

- HVAC planned maintenance contract
- Design, supply and commissioning of platform HVAC Systems
- Design, supply and commissioning of platform Chiller System and Refrigerated stores.
- Offshore platform, drill, ships, jack-ups, semi-submersibles, FPSO's, FSO's.
- Onshore oil and gas processing facilities, LNG plants, refineries.
- Onshore hazardous process areas, high integrity systems.
- Full installation, commission and maintenance services.

## Maintenance

BNL provides a planned maintenance service to ensure continuous optimum plant operation with minimal downtime. Maintenance engineers are available to travel to any location within Nigeria to service or repair any HVAC plant.

## PROJECTS

- Benkline is structured to scale up to meet any conceivable oil service project within its areas of expertise.
